PostBase 130/130d Dynamic plus

PROGRAMMED FOR GROWTH

ONE BUTTON ONLY
Keyboard was yesterday. Turn the PostBase on and use the 4.3-inch color touchscreen to make operation easy as child's play.

INTUITIVE OPERATION
Always displays all relevant data and clearly guides the user to the correct program option. An operating concept that even a first-time user immediately understands.

STAND COMFORTABLY
The big color touch-screen can be adjusted to six ergonomically optimal positions for the perfect view.

PLUG & PLAY
Whatever configuration you want for your system in the future, two USB-jacks and a high-speed LAN connection are already there.

STACKING BOX
Unique in this segment, the optional stacking box can hold up to 10 kg and has space for about 250 letters.

The modular concept enables a super start – with excellent value for the price. As your requirements grow, the PostBase can be adapted to your new, individual needs at any time.

Envelope sealer, automatic feeder, dynamic scale and a high-volume collecting box can easily be connected to the existing base unit. Memory for additional advertising slogans or cost-accounts can be expanded.

You'll be glad to have selected a system that grows with your needs – without being complicated.

01
Automatic feed
Perfect postage stamps even on thick or unevenly-filled envelopes – no problem. The PostBase 130/130d Dynamic Plus guarantees reliable processing of mail up to smooth, 3/8" thick.

02
Intelligent envelope sealer
Quickly and securely closes envelopes as they're processed. In the event there is imperfection, the Postbase will prompt the operator.

03
Dynamic scale
Ideal for the efficient processing of mixed mail. PostBase 130/130d Dynamic Plus determines the size and weight of envelopes and automatically stamps the correct postage. Up to 130 letter/minute depending on format.

04
Label Dispenser
Automatic Label Dispenser for Oversized Envelopes.

05
Integrated static scale
Uncomplicated precision weighing for especially thick letters or small packages. The 7-kg scale also offers "differential weighing"

06
Collecting tray
Your mail is metered in a snap. Finished letters land here, ready to be mailed.

PostBase 130/130d Dynamic Plus

Introducing the FP PostBase 130. This total solution brings best-in-class mailing technology, smooth feeding and intuitive operation to your office environment. Learn how the PostBase 130 can benefit you.

Quality
